About This Release

This document describes the enhancements, fixes, and system requirements for Incident Analyst 2022.

This release includes both enhancements and fixes. For information on new features, see the New Technology section. For information on fixes that were made for this release, see the Issues Resolved section. For information on hardware and software requirements, see the System Requirements section.

This document is only an overview and does not provide all the details about the product's capabilities. See the [online help](#) and other documents provided with Incident Analyst for more information.

Incident Analyst

Incident Analyst provides an intuitive, user-friendly environment for analyzing incident locations. All incidents have a positional characteristic, and Incident Analyst can use this information to spot trends in frequency based on geography. The resultant analysis allows decision makers to target areas to effectively deploy resources and create intelligence products that detect spatial patterns to aid tactical analysis.

New Platforms

GeoMedia Desktop 2022

Incident Analyst has been updated for compatibility with GeoMedia Desktop 2022.

New Technology

Licensing

A new product license is required for the 2022 release. The latest licensing 2022 application should be downloaded and used for this release.

System Requirements

Computer/Processor	<ul style="list-style-type: none">64-bit: Intel 64 (EM64T), AMD 64, or equivalent
Memory (RAM)	<ul style="list-style-type: none">4 GB minimum
Disk Space	<ul style="list-style-type: none">30 MB for softwareData storage requirements vary by mapping project
Operating Systems ¹	<ul style="list-style-type: none">Windows® 10 Professional (64-bit)
Databases	<ul style="list-style-type: none">Incident Analyst Client communicates with Incident Analyst Server for data access

Software	<ul style="list-style-type: none"> • GeoMedia Advantage or Professional 2022 • Compatible with I/CAD 9.4, but not required • Microsoft® .NET Framework, Version 4.0 or Version 4.5, Windows Installer 3.1 or higher
