

CONSTRUCTION INSIGHT

*A solution
for your
integrated
project
environment*

The first step toward digitalization is realizing you need a digital solution. And digitalization is the first step on the road to an integrated project environment.

Construction Insight combines model, schedule and progress data to deliver unprecedented insight into project performance.

With a zero IT footprint, this cloud-based platform offers real-time, unprecedented insight into construction progress.

Preconstruction Planning

With Construction Insight, preconstruction planning processes are enhanced by:

- Link model elements and documents to work packages
- View and create 4D schedule animation
- Create and assign sub-tracks or work steps

- View schedule activities and detailed work package steps
- Combine and view models for visualization and quantification purposes

Construction Execution

Transform traditional construction execution workflows with Construction Insight.

- Visualize 4D look-ahead schedules
- Monitor and update progress in the field via mobile
- Create, assign and track field issues
- Field layout / Quality Assurance enhanced by 3D model-based point extraction
- Laser Scanning integration for field validation

Project Performance / Monitoring

United data from across the project lifecycle gives Construction Insight gives project stakeholders the ability to report, monitor and make informed decisions. Have visibility into:

- Budget management
- Change order management
- Project Analytics on an easy-to-understand dashboard
- Productivity analysis
- Forecasting

Are you ready to evolve into an industry leader?

Hexagon's solutions provide unprecedented access into planned vs. actual project information, in an integrated visual solution. They put the power of Construction Insight into the hands of all project stakeholders.

ABOUT HEXAGON

Hexagon is a global leader in sensor, software and autonomous solutions. We are putting data to work to boost efficiency, productivity, and quality across industrial, manufacturing, infrastructure, safety, and mobility applications.

Hexagon's PPM division empowers its clients to transform unstructured information into a smart digital asset to visualize, build and manage structures and facilities of all complexities, ensuring safe and efficient operation throughout the entire lifecycle.

Hexagon (Nasdaq Stockholm: HEXA B) has approximately 20,000 employees in 50 countries and net sales of approximately 3.8bn EUR. Learn more at hexagon.com and follow us @HexagonAB.
