

Timekeeping

Modernize timekeeping workflows with mobile access to time and attendance

Accurate timekeeping can be a real challenge with a highly distributed workforce. Manual processes for time reporting are vulnerable to errors, omissions, duplications and other problems, causing an undue burden on the payroll team. This results not only in wasted time and effort, but also in over- and under-payments, long payroll lead times and process inconsistencies, making it almost impossible to identify and isolate errors.

Hexagon Xalt's Timekeeping solution eliminates the pain points associated with labor-intensive, error-prone payroll processes. Our solution automates and standardizes the entire payroll workflow, enabling workers to enter their hours in real time from the field on a smartphone or tablet. By applying custom business rules and verifying data as it is entered, Xalt Timekeeping improves accuracy and visibility while reducing overhead costs associated with payroll. .

Ensure accurate, efficient payroll processes

Get real-time information and reduce errors

Modernize and mobilize payroll

Track workers' hours in real time

Improve accuracy and visibility

Reduce errors and overhead costs

Ensure on-time worker payments

Xalt has put us ahead of our competition by allowing us to gather data electronically, automate processes, validate data entry and analyze data to make better decisions. You can create workflows that match your processes and tie into all your systems.”

– Matt Fairbanks, Chief Information Officer, VECA Electric

Key features and benefits:

Automates the payroll process and validates data in real time

Provides granular timekeeping data and makes it available as needed

Eliminates lag time by allowing data to be entered in real time from the field

Removes bottlenecks and non-value-added steps in the payroll process

Prevents errors caused by manual processes and human error

Ensures compliance by applying business rules and enforcing process adherence

Ensures the right people are accounted for in the payroll process

Enables customized rules to be implemented for any workplace

Reduces overhead costs associated with inefficient payroll workflows

Calculates overtime automatically and applies rules for exceptions

Don't waste time and money on error-prone manual payroll processes! Xalt Timekeeping solves your payroll challenges by standardizing data entry and validating, preventing human errors and reducing the burden on your payroll team. The result is greater efficiency, productivity and reliability in your payroll operations.
