Partner with Hexagon's Safety, Infrastructure & Geospatial division

Let's do this together

A partnership with Hexagon provides your company with the opportunity to work alongside a globally recognized industry leader. We offer world-class software solutions that can complement and augment your capabilities.

At Hexagon, we collaborate with our partners to meet the needs of our customers and the growing demands of the industries we serve. We work hand in hand with our partners to offer solutions in different markets where our products fit, while also taking their solutions into our traditional markets.

Our markets

Protects 1 billion people with leading public safety solutions

Building on our long-standing leadership in computer-aided dispatch, we provide a public safety platform for data collection, management, analysis, collaboration and response.

Supports more than two dozen national defense agencies

We deliver mapping and imagery intelligence capabilities and enable high-performance, real-time applications for command and control, mission planning and more.

Ensures reliable utilities and communications services to 1 billion consumers

Leading electricity, gas, telecommunications and water service providers rely on us for their network planning, design, maintenance and real-time grid operations.

Improves transportation safety and reliability for millions of travelers

We support aviation, maritime, rail and road planning, operations and safety, from mapping and maintaining infrastructure to monitoring traffic and services.

Why become a partner?

- **Flexible programs:** Take advantage of unique partner opportunities for systems integrators, software companies and consulting organizations

- **Marketing support:** Use Hexagon's trademarks, trade names, service marks, logos and other proprietary marketing assets and collateral to promote partner and Hexagon products and services

- **Partner training portal:** Access the Hexagon Dynamo portal for technical and sales training for Hexagon products

- **Hexagon resources:** Receive Hexagon product documentation, non-production demonstration/ testing environments and/or applications, informational notifications and related support

- **Partner success manager:** Work directly with a partner success manager to identify and pursue mutually beneficial business development opportunities

A partnership with Hexagon provides your company with the opportunity to work alongside a globally recognized industry leader. We offer world-class software solutions that can complement and augment your capabilities.

Hexagon is a global leader in digital reality solutions, combining sensor, software and autonomous technologies. We are putting data to work to boost efficiency, productivity, quality and safety across industrial, manufacturing, infrastructure, public sector, and mobility applications. Our technologies are shaping production and people-related ecosystems to become increasingly connected and autonomous – ensuring a scalable, sustainable future.

Hexagon's Safety, Infrastructure & Geospatial division improves the resilience and sustainability of the world's critical services and infrastructure. Our solutions turn complex data about people, places and assets into meaningful information and capabilities for better, faster decision-making in public safety, utilities, defense, transportation and government.
